

MEET BHATTI

Aspiring Data Analyst · AI & Prompt Engineering · Web Development

meetbhatti750@gmail.com | +91 79841122875 | linkedIn

PROFESSIONAL SUMMARY

Motivated and detail-oriented BCA graduate with a strong interest in Data Analytics and AI-assisted development. Completed a 15-day web development internship with hands-on exposure to Python, prompt engineering, and modern AI coding tools. Comfortable with data cleaning, data analysis, MS Excel, and basic SQL, along with front-end fundamentals in HTML, CSS, and JavaScript. Eager to learn new technologies, sharpen practical skills, and contribute effectively to an organization's growth.

CORE SKILLS & TOOLS

Python

HTML / CSS

JavaScript

MS Excel

Basic SQL

Data Cleaning

Data Analysis

Prompt Engineering

WindSurf

AntiGravity

UI Design

Frontend Basics

Debugging

Problem Solving

★ **AI Tools Proficiency:** WindSurf, AntiGravity and prompt-engineering techniques — used for code generation, debugging support, structuring system responses, and improving overall development efficiency.

WORK EXPERIENCE

Web Development Intern | Vortex Aziel

15 Days Internship

Fresher — internship experience

- ♦ Built and implemented solutions using Python and prompt engineering concepts.
- ♦ **AI-Enhanced Workflow** — created structured prompts to improve AI response quality and efficiency during development tasks.
- ♦ Worked with modern AI development tools such as WindSurf and AntiGravity.
- ♦ Improved system performance through testing, debugging, and prompt refinement.
- ♦ Gained practical understanding of the real-world development lifecycle and project execution.

AI SKILLS & PRACTICAL LEARNING

Prompt Engineering & AI-Assisted Development — Hands-on Practice

- ♦ Applied prompt engineering techniques to structure inputs and obtain consistent, usable outputs from AI tools.
- ♦ Used AI tools to accelerate coding, debugging, and refinement of Python logic.
- ♦ Practised iterative prompt refinement to improve accuracy and reduce rework in day-to-day tasks.

FEATURED PROJECTS

Internet Banking System

Python · Prompt Engineering

Context: Academic project simulating the core workflows of a digital banking application.

- ♦ Built a simulated Internet Banking Application using Python.
- ♦ Implemented key functionality: secure login, account management, fund transactions (deposit / withdraw), and balance tracking.
- ♦ **AI-Assisted:** used prompt engineering concepts to structure system responses and improve the interaction flow.
- ♦ Focused on data validation, error handling, and logical flow optimization.
- ♦ Tested and debugged the system to ensure reliable performance.
- ♦ **Key Learning:** practical understanding of digital banking systems and backend logic.

EDUCATION

Bachelor of Computer Applications (BCA)

2023 – 2026

Shri G K & C K Bosamiya Arts & Commerce College, Jetpur — Saurashtra University | CGPA: 6.75

HSC (Class XII)

2022 – 2023

Shree Vivekanand Vinay Mandir | Percentage: 56%

SSC (Class X)

2020 – 2021

Shree Aaruni Saiksanik Sankul | Percentage: 94.64%

LANGUAGES & ADDITIONAL STRENGTHS

- ◆ **Languages:** English — Intermediate | Hindi — Fluent | Gujarati — Native.
- ◆ Good communication skills with a consistent willingness to learn new tools and technologies.
- ◆ Completed a 15-day industry internship, gaining exposure to professional development practices.
